From pottery painting to decoupage, glass fusing to mosaics, you never know what we'll have your kids doing at Winter Break. While we generally have one pottery painting project and one glass fusing project, we may throw in a clay project, a multi-media altered art project, or something totally new. Projects are geared for the children in class so they'll complete anywhere from two to four projects in a day. (Some projects require a return visit to pick up completed projects.)

ART

Art is essential for our cultural well-being. It has the ability to change the way we look at things, including others and ourselves and it helps us to celebrate our uniqueness. Art can make us

feel that we can do anything we want to do. Art expands our mind and relaxes us. Art develops eye and hand coordination and it gives us a chance to express our feelings while using our minds.

At Laurel Street Arts, we have knowledgeable and enthusiastic staff to lead your kids through an exploration of a wide variety of crafting techniques. Whether your artist is new to crafting or experienced, our instructors offer tips and techniques to help them make the most of their talents.
